Live Conference Call to be Held at 8:00 PM U.S. Eastern Time, March 9, 2015

BEIJING, March 9, 2015 (GLOBE NEWSWIRE) — 21Vianet Group, Inc. (Nasdaq: VNET) (“21Vianet” or the “Company”), a leading carrier-neutral Internet data center services provider in China, today announced its unaudited financial results for the fourth quarter and full year of 2014. The Company will hold a conference call at 8:00 p.m. Eastern Time on March 9, 2015. Dial-in details are provided at the end of the release.

Fourth Quarter 2014 Financial Highlights

- **Net revenues** increased by 56.4% to RMB853.9 million (US\$137.6 million) from RMB545.9 million in the comparative period in 2013.
- **Adjusted EBITDA¹** increased by 55.7% to RMB160.1 million (US\$25.8 million) from RMB102.9 million in the comparative period in 2013.

Full Year 2014 Financial Highlights

- **Net revenues** increased by 46.3% to RMB2.88 billion (US\$463.6 million) from RMB1.97 billion in 2013.
- **Adjusted EBITDA** increased by 52.9% to RMB558.9 million (US\$90.1 million) from RMB365.6 million in 2013.

Mr. Josh Chen, Founder, Chairman and Chief Executive Officer of the Company, stated, “We ended 2014 on a strong note, as we saw continued strong growth momentum in our internet data center (IDC), content delivery network (CDN), and cloud businesses. We further expanded our IDC portfolio as we added an additional 3,378 cabinets, allowing our total cabinet count to grow to 21,522, a 53% year-over-year increase. Furthermore, we welcomed new strategic investments from Kingsoft and Xiaomi, and additional investments by Temasek. Our cooperation with Kingsoft calls for at least 5,000 new cabinets to be leased over the next three years, which will serve as an incremental source of demand for our IDC business. We are excited to see leading global technology companies inside and outside of China that share our vision and believe that their investments offer significant strategic value to both our core operations and new business opportunities. Looking ahead at 2015, we expect demand drivers for our business to remain robust, supported by increased Internet usage and penetration in China, additional demand for cloud services, the continued growth of mobile Internet traffic, and increased demand from financial institutions. These drivers will fuel our growth and allow us to continue executing on our strategies, strengthening our position as a leading integrated Internet infrastructure services provider.”

Mr. Shang-Wen Hsiao, Chief Financial Officer of the Company, commented, “We finished 2014 with another quarter marked by consistent and steady growth, with total revenues growing by 56.4% year-over-year and adjusted EBITDA growing by 55.7% year-over-year. In addition, we were able to significantly increase our data center capacity while maintaining our targeted utilization rate. We also saw continued improvement in our accounts receivables metric, as the days-sales-outstanding (DSO) decreased further from 92 days in the third quarter to 78 days in the fourth quarter. As we move forward, we are confident that we will be able to build upon the strong financial and operating performance of 2014 and continue to execute our strategies to capitalize on the trends taking place in China’s dynamic and evolving data center and cloud services markets.”

¹ Adjusted EBITDA is a non-GAAP financial measure, which is defined as EBITDA excluding share-based compensation expenses and changes in the fair value of contingent purchase consideration payable and EBITDA is defined as net profit (loss) from operations before income tax expense (benefit), foreign exchange gain, other expenses, other income, interest expense, interest income and depreciation and amortization.

Fourth Quarter 2014 Financial Results

REVENUES: Net revenues for the fourth quarter of 2014 increased by 56.4% to RMB853.9 million (US\$137.6 million) from RMB545.9 million in the comparative period in 2013.

Net revenues from hosting and related services increased by 63.8% to RMB596.2 million (US\$96.1 million) in the fourth quarter of 2014 from RMB364.0 million in the comparative period in 2013, primarily due to an increase in the total number of cabinets under management, an increase in demand for the Company's CDN and cloud computing services, as well as contributions from acquisitions, partially offset by the transition to a Value Added Tax (VAT) system. Net revenues from managed network services increased by 41.6% to RMB257.7 million (US\$41.5 million) in the fourth quarter of 2014 from RMB181.9 million in the comparative period in 2013 primarily driven by the contributions from acquisitions, which was partially offset by network grooming efforts and the transition to a VAT system.

GROSS PROFIT: Gross profit for the fourth quarter of 2014, increased by 65.0% to RMB238.0 million (US\$38.4 million) from RMB144.2 million in the comparative period in 2013. Gross margin for the fourth quarter of 2014 was 27.9%, compared with 26.4% in the comparative period in 2013. The increase in gross margin was primarily due to higher margin revenue contributions from acquisitions and cloud services.

Adjusted gross profit, which excludes share-based compensation expenses and amortization of intangible assets derived from acquisitions, increased by 83.4% to RMB290.7 million (US\$46.9 million) from RMB158.5 million in the comparative period in 2013. Adjusted gross margin increased to 34.0% in the fourth quarter of 2014 from 29.0% in the comparative period in 2013.

OPERATING EXPENSES: Total operating expenses increased by 162.6% to RMB344.3 million (US\$55.5 million) from RMB131.1 million in the comparative period in 2013. Adjusted operating expenses, which exclude share-based compensation expenses and the changes in the fair value of contingent purchase consideration payable, increased to RMB234.4 million (US\$37.8 million) from RMB102.0 million in the comparative period in 2013. As a percentage of net revenue, adjusted operating expenses were 27.5%, compared with 18.7% in the comparative period in 2013 and 25.5% in the third quarter of 2014.

Sales and marketing expenses increased by 107.0% to RMB100.1 million (US\$16.1 million) from RMB48.3 million in the comparative period in 2013, primarily due to expansion of the sales and service personnel in the Company's overall business and acquisitions with higher sales and marketing expenses.

General and administrative expenses increased by 192.5% to RMB159.6 million (US\$25.7 million) from RMB54.6 million in the comparative period in 2013, primarily due to increased headcount associated with the growth in the Company's overall business and acquisitions with higher general and administrative expenses.

Research and development expenses increased by 89.6% to RMB39.9 million (US\$6.4 million) from RMB21.0 million in the comparative period in 2013, which reflected the Company's efforts to further strengthen its research and development capabilities and expand its cloud computing and CDN service offerings.

Change in the fair value of contingent purchase consideration payable was a loss of RMB44.8 million (US\$7.2 million) in the fourth quarter of 2014, compared with a loss of RMB7.2 million in the comparative period in 2013.

Adjusted net profit for the fourth quarter of 2014 was RMB7.1 million (US\$1.1 million) compared with RMB41.0 million in the comparative period in 2013. Adjusted net profit in the fourth quarter of 2014 excludes share-based compensation expenses of RMB68.9 million (US\$11.1 million), amortization of intangible assets derived from acquisitions of RMB49.0 million (US\$7.9 million), changes in the fair value of contingent purchase consideration payable and related deferred tax impact of RMB44.8 million (US\$7.2 million) in the aggregate. Adjusted net margin was 0.8%, compared with 7.5% in the comparative period in 2013 and 2.1% in the third quarter of 2014.

EARNING/LOSS PER SHARE: Diluted loss per ordinary share for the fourth quarter of 2014 was RMB0.44, which represents the equivalent of RMB2.64 (US\$0.43) per American Depositary Share (“ADS”). Each ADS represents six ordinary shares. Adjusted diluted loss per share for the fourth quarter of 2014 was RMB0.03, which represents the equivalent of RMB0.18 (US\$0.03) per ADS. BALANCE SHEET: As of December 31, 2014, the Company’s cash and cash equivalents and short-term investment were RMB1.56 billion (US\$250.7 million). Taking into consideration the equity investment transactions with Kingsoft, Xiaomi and Temasek for a total amount of US\$296 million, which closed on January 15, 2015, our cash, cash equivalents and short-term investments on a pro forma basis totaled approximately RMB 3.4 billion (US\$546.7 million).
