The growth in this quarter was driven by continued strong demand from our diverse customer base. We are pleased to note that among this customer base are some of China’s blue chip companies as well as many of China’s IT sector leaders. This demonstrates our customers’ continued recognition of our high-quality and reliable service offerings.”

“Furthermore, our customers’ rapid expansion continues to drive the growth momentum of 21Vianet,” continued Chairman Chen. “We believe our focus on delivering reliability, stability and speed for optimizing our customer network connections and improving their end consumers’ user experience will build a strong foundation for 21Vianet’s future growth.”

Mr. Shang Hsiao, President and Chief Financial Officer of the Company, commented, “We are pleased that we have successfully completed our IPO to become a NASDAQ-listed public company. With the additional liquidity, we believe we are well-capitalized to deliver revenue growth compared to the prior quarter target by executing upon our internet infrastructure and services offerings expansion efforts. First Quarter 2011 Financial Results

REVENUES: Net revenues for the first quarter of 2011 increased by 125.2% to RMB210.6 million (US\$32.2 million) from RMB93.5 million in the prior year comparative period. Net revenues from hosting

and related services increased by 60.5% to RMB128.9 million (US\$19.7 million) in the first quarter of 2011 from RMB80.3 million in the prior year comparative period, primarily due to increased demand from the Company's existing customer base as well as new customers. Net revenues from managed network services increased by 518.9% to RMB81.7 million (US\$12.5 million) in the first quarter of 2011 from RMB13.2 million in the prior year comparative period, primarily due to the inclusion of operating results of two companies that provide managed network service in China, or the Managed Network Entities, that the Company acquired in September 2010. Excluding revenues contributed by the Managed Network Entities, net revenues from managed network services increased by 48.5% to RMB19.6 million (US\$3.0 million) from RMB13.2 million in the prior year comparative period. The increase in managed network services revenue was primarily driven by continued growth in data transmission services from existing and new customers.

GROSS PROFIT: For the first quarter of 2011, gross profit increased by 139.6% to RMB55.1 million (US\$8.4million) from RMB23.0 million in the prior year comparative period. Gross margin for the first quarter of 2011 increased to 26.2% from 24.6% in the prior year comparative period.

Adjusted gross profit, which excludes share-based compensation expenses of RMB0.7 million and amortization of intangible assets derived from acquisitions of RMB7.5 million, increased by 168.9% to RMB63.2 million (US\$9.7 million) from RMB23.5 million in the prior year comparative period. Adjusted gross margin increased to 30.0%, compared to 25.1% in the prior year comparative period, which is defined as adjusted gross profit as a percentage of net revenue. The increase in gross margin was primarily due to a revenue mix shift towards a higher percentage of new cabinets in the Company's self-built data centers relative to partnered data centers. Cabinets deployed in the Company's self-built data centers carry relatively higher gross margins than those in partnered data centers.

OPERATING EXPENSES: Total operating expenses increased to RMB89.2 million (US\$13.6 million) from RMB16.6 million in the prior year comparative period.

Sales and marketing expenses increased to RMB16.0 million (US\$2.4 million) from RMB7.4 million in the prior year comparative period, primarily due to expansion of the Company's sales and marketing efforts and the recognition of share-based compensation expenses of RMB1.4 million.

General and administrative expenses increased to RMB16.0 million (US\$2.4 million) from RMB6.8 million in the prior year comparative period, reflecting expansion of the Company's new offices and related headcount and share-based compensation expenses of RMB5.8 million.

Research and development expenses increased to RMB7.2 million (US\$1.1 million) from RMB2.5 million in the prior year comparative period, reflecting the Company's efforts to further differentiate and enhance its service offerings.

Changes in the fair value of contingent purchase consideration payable was RMB50.0 million (US\$7.6 million) during the first quarter of 2011. This non-cash expense was primarily due to an increase in the present value of estimated cash and share considerations as of March 31, 2011 associated with the Company's acquisition of the Managed Network Entities.

Adjusted operating expenses, which excludes share-based compensation expenses and the changes in the fair value of contingent purchase consideration payable, increased to RMB31.2 million (US\$4.8 million) from RMB16.6 million in the prior year comparative period. As a percentage of net revenue, adjusted operating expenses decreased to 14.8% from 17.7% in the prior year comparative period.

ADJUSTED EBITDA: Adjusted EBITDA for the first quarter of 2011 increased by 246.8% to RMB43.0 million (US\$6.6 million) from RMB12.4 million in the prior year comparative period. Adjusted EBITDA margin for the quarter was 20.4%, compared to 13.3% in the prior year comparative period. Adjusted EBITDA in the first quarter of 2011 excludes share-based compensation expenses of RMB8.6 million (US\$1.3 million) and changes in the fair value of contingent purchase consideration payable of RMB50.0 million (US\$7.6 million).

NET PROFIT/LOSS: Net loss from continuing operations for the first quarter of 2011 was RMB30.5 million (US\$4.7 million), compared to RMB4.0 million in the prior year comparative period.

Adjusted net profit for the first quarter of 2011 increased by 283.6% to RMB28.0 million (US\$4.3 million) from RMB7.3 million in the prior year comparative period. Adjusted net profit in the first quarter of 2011 excludes share-based compensation expenses of RMB8.6 million, amortization of intangible assets derived from acquisitions of RMB7.5 million, and changes in the fair value of contingent purchase consideration payable and related deferred tax assets of RMB 42.5 million. Adjusted net margin increased to 13.3% compared to 7.8% in the prior year comparative period, which is defined as adjusted net profit as a percentage of net revenues.

EARNING/LOSS PER SHARE: Basic and diluted losses per ordinary share for the first quarter of 2011 were both RMB0.38 (US\$0.06), equivalent to US\$0.36 per American Depositary Share (“ADS”) ¹, compared to a loss of RMB0.24 in the prior year comparative period. Pro forma adjusted basic earnings per share for the first quarter of 2011 was RMB0.10 (US\$0.02), equivalent to US\$0.12 per ADS, compared to RMB0.04 in the prior year comparative period. ²
