21Vianet Group, Inc. Reports Unaudited Third quarter 2020 Financial Results

BEIJING, November 24, 2020 (GLOBE NEWSWIRE) — 21Vianet Group, Inc. (Nasdaq: VNET) (“21Vianet” or the “Company”), a leading carrier- and cloud-neutral Internet data center services provider in China, today announced its unaudited financial results for the third quarter ended September 30, 2020. The Company will hold a conference call at 8:00 P.M. on Tuesday, November 24, 2020, U.S. Eastern Time to discuss the financial results. Dial-in details are provided at the end of this release.

Third quarter 2020 Financial Highlights

- Net revenues increased by 27.0% to RMB1.25 billion (US\$183.5 million) from RMB981.0 million in the same period of 2019.
- Adjusted cash gross profit (non-GAAP) increased by 32.6% to RMB526.2 million (US\$77.5 million) from RMB396.7 million in the same period of 2019. Adjusted cash gross margin (non-GAAP) was 42.2%, compared to 40.4% in the same period of 2019 and 40.9% in the second quarter of 2020.
- Adjusted EBITDA (non-GAAP) increased by 35.2% to RMB368.5 million (US\$54.3 million) from RMB272.5 million in the same period of 2019. Adjusted EBITDA margin (non-GAAP) was 29.6%, compared to 27.8% in the same period of 2019 and 26.8% in the second quarter of 2020.

Third quarter 2020 Operational Highlights

- Total cabinets under management net increased by 7,426 to 51,476 as of September 30, 2020, compared to 44,050 as of June 30, 2020, and 32,116 as of September 30, 2019.
- Retail IDC MRR¹ per cabinet increased slightly to RMB9,074 in the third quarter of 2020, compared to RMB8,711 in the same period of 2019 and RMB8,953 in the second quarter of 2020.
- Compound utilization rate improved to 64.2% from 61.4% in the second quarter of 2020, mainly reflecting the Company’s shortened move-in period for newly delivered cabinets and ongoing refinement of its customer mix.
 - Utilization rate for mature IDCs delivered prior to 2019 improved to 77.0% in the third quarter of 2020 from 73.6% in the second quarter of 2020.
 - Utilization rate for newly-built and ramp-up IDCs delivered since 2019 improved to 35.9% in the third quarter of 2020, compared to 30.1% in the second quarter of 2020.

Mr. Alvin Wang, Chief Executive Officer and President of the Company, stated, “We are pleased to announce that we delivered a strong performance in the third quarter of 2020 as a result of our dual-core growth strategy, competitive IDC solutions for both retail and wholesale customers, and on-track delivery schedule. Moreover, in recognition of the IDC industry’s steady growth trajectory in China, we continued to work towards better positioning ourselves for long-term growth. Firstly, to further bolster our IDC pipeline in the surrounding areas of tier-one cities, we secured two separate IDC resources to the immediate east of Beijing, adding around 50MW in total capacity to this key area. Furthermore, we secured an additional 140MW of IT power to be used in the expansion of our Jiangsu Campus over the next three to five years. Secondly, we announced the launch of our management rotation program, which will take effect in the coming year and help us to develop more internal synergies and cross-functional expertise. Thirdly, we developed our 2021-2023 Three-Year Growth Plan to accelerate our future expansion and further optimize our dual-core growth strategy. Looking ahead, we are confident that such measures will serve to sustain our growth momentum, enhance our operations, and unlock more value throughout China’s IDC industry over the long term.”

¹ Retail IDC MRR: Refers to Monthly Recurring Revenues for the retail IDC business.

Ms. Sharon Liu, Chief Financial Officer of the Company, commented, “We concluded the third quarter of 2020 with solid financial results as our revenues were within our previous guidance range and our adjusted EBITDA exceeded the high end of our guidance range. In the meantime, we also continued to improve our margins. Our strong financial growth reflects both our continuous cabinet expansion and improved utilization rates. To date, we have already delivered more than 15,000 cabinets in total since the beginning of this year. Our strong balance sheet, ability to secure cost-efficient financing sources, and endorsement from well-established investors in the IDC industry continue to showcase the strength of our financials and our preparedness to capitalize on new growth opportunities. Going forward, we remain confident in our ability to reach our development goals, continue increasing our market share, and deliver lasting value to our shareholders in turn.”

Third quarter 2020 Financial Results

NET REVENUES: Net revenues in the third quarter of 2020 increased by 27.0% to RMB1.25 billion (US\$183.5 million) from RMB981.0 million in the third quarter of 2019, representing an increase of 8.9% from RMB1.14 billion in the second quarter of 2020. The increase was mainly due to the growing demand of both wholesale and retail IDC customers, driven by the long-term trend of corporate digitization across China.

GROSS PROFIT: Gross profit in the third quarter of 2020 was RMB275.1 million (US\$40.5 million), representing an increase of 23.6% from RMB222.6 million in the same period of 2019 and an increase of 1.0% from RMB272.3 million in the second quarter of 2020. Gross margin in the third quarter of 2020 was 22.1%, compared to 22.7% in the same period of 2019 and 23.8% in the second quarter of 2020. The year-over-year decrease in gross margin was primarily attributable to the delivery of additional IDC capacity as well as the additional time required to ramp up the utilization rates of the newly added cabinets.

ADJUSTED CASH GROSS PROFIT, which excludes depreciation, amortization, and share-based compensation expenses, was RMB526.2 million (US\$77.5 million) in the third quarter of 2020, compared to RMB396.7 million in the same period of 2019 and RMB467.6 million in the second quarter of 2020. Adjusted cash gross margin in the third quarter of 2020 was 42.2%, compared to 40.4% in the same period of 2019 and 40.9% in the second quarter of 2020.

OPERATING EXPENSES: Total operating expenses in the third quarter of 2020 were RMB199.3 million (US\$29.4 million), compared to RMB157.1 million in the same period of 2019 and RMB193.5 million in the second quarter of 2020. As a percentage of net revenues, total operating expenses in the third quarter of 2020 was 16.0%, compared to 16.0% in the same period of 2019 and 16.9% in the second quarter of 2020.

Sales and marketing expenses in the third quarter of 2020 were RMB45.8 million (US\$6.7 million), representing a decrease of 12.7% from RMB52.4 million in the same period of 2019 and a decrease of 11.4% from RMB51.7 million in the second quarter of 2020. The decrease in sales and marketing expenses was primarily attributable to temporarily delayed sales and marketing activities.

Research and development expenses in the third quarter of 2020 were RMB26.1 million (US\$3.8 million), representing an increase of 15.8% from RMB22.5 million in the same period of 2019 and an increase of 10.2% from RMB23.7 million in the second quarter of 2020, primarily due to the Company’s continuous investments in technology upgrades.

General and administrative expenses in the third quarter of 2020 were RMB127.5 million (US\$18.8 million), representing an increase of 55.2% from RMB82.2 million in the same period of 2019 and an increase of 6.7% from RMB119.5 million in the second quarter of 2020. The increase in general and administrative expenses was primarily due to increased staff costs related to the recruitment of experienced management personnel.

ADJUSTED OPERATING EXPENSES, which exclude share-based compensation expenses, were RMB180.5 million (US\$26.6 million) in the third quarter of 2020, representing an increase of 23.4% from RMB146.2 million in the same period of 2019 and a slight decrease of 1.1% from RMB182.5 million in the second quarter of 2020. As a percentage of net revenues, adjusted operating expenses in the third quarter of 2020 decreased to 14.5% from 14.9% in the same period of 2019 and from 15.9% in the second quarter of 2020.

ADJUSTED EBITDA: Adjusted EBITDA in the third quarter of 2020 was RMB368.5 million (US\$54.3 million), representing an increase of 35.2% from RMB272.5 million in the same period of 2019 and an increase of 20.2% from RMB306.4 million in the second quarter of 2020. Adjusted EBITDA in the third quarter of 2020 excluded share-based compensation expenses of RMB23.1 million (US\$3.4 million). Adjusted EBITDA margin was 29.6% in the third quarter of 2020, compared to 27.8% in the same period of 2019 and 26.8% in the second quarter of 2020.

NET PROFIT/LOSS: Net profit attributable to ordinary shareholders in the third quarter of 2020 was RMB97.1 million (US\$14.3 million), compared to a net loss attributable to ordinary shareholders of RMB69.5 million in the same period of 2019 and a net loss attributable to ordinary shareholders of RMB2.12 billion in the second quarter of 2020.

PROFIT/LOSS PER SHARE: Basic and diluted profit per share were RMB0.11 (US\$0.02) and RMB0.08 (US\$0.01), respectively, in the third quarter of 2020, which represents the equivalent of RMB0.66 (US\$0.12) and RMB0.48 (US\$0.06), respectively, per American depositary share (“ADS”). Each ADS represents six Class A ordinary shares. Diluted profit/loss per share is calculated using net profit/loss attributable to ordinary shareholders divided by the weighted average number of diluted shares outstanding.

As of September 30, 2020, the aggregate amount of the Company’s **cash and cash equivalents, restricted cash, and short-term investments** were RMB5.53 billion (US\$815.2 million).

Net cash generated from operating activities in the third quarter of 2020 was RMB210.0 million (US\$30.9 million), compared to RMB198.6 million in the same period of 2019 and RMB161.8 million in the second quarter of 2020.

Financial Outlook

For the fourth quarter of 2020, the Company expects net revenues to be in the range of RMB1,320 million to RMB1,340 million. Adjusted EBITDA in the fourth quarter of 2020 is expected to be in the range of RMB380 million to RMB400 million.

For the full year of 2020, the Company expects net revenues to be in the range of RMB4,800 million to RMB4,820 million. Adjusted EBITDA for the full year of 2020 is expected to be in the range of RMB1,314 million to RMB1,334 million. The midpoints of the Company’s updated estimates imply an increase of 27% and 26% year over year in net revenues and adjusted EBITDA, respectively.

The forecast reflects the Company’s current and preliminary views on the market and its operational conditions, which do not factor in any of the potential future impacts caused by the COVID-19 pandemic, and are subject to change.

Three-Year Growth Plan

In order to capitalize on the forecasted market trends and augment its market position as a reliable carrier- and cloud-neutral Internet data center services provider in China, the Company has developed a new Three-Year Growth Plan, outlining its objectives from 2021 to 2023. As part of the plan, the Company has set a minimum capacity expansion target of 25,000 standard cabinets (or 180MW) per year.

The forecast reflects the Company's current and preliminary views on the market and its operational conditions, which are subject to change.

Non-GAAP Disclosure

In evaluating its business, 21Vianet considers and uses the following non-GAAP measures defined as non-GAAP financial measures by the Securities and Exchange Commission as a supplemental measure to review and assess its operating performance: adjusted cash gross profit, adjusted cash gross margin, adjusted operating expenses, adjusted EBITDA, adjusted EBITDA margin. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. For more information on these non-GAAP financial measures, please see the table captioned "Reconciliations of GAAP and non-GAAP results" set forth at the end of this press release.

The non-GAAP financial measures are provided as additional information to help investors compare business trends among different reporting periods on a consistent basis and to enhance investors' overall understanding of the Company's current financial performance and prospects for the future. These non-GAAP financial measures should be considered in addition to results prepared in accordance with U.S. GAAP, but should not be considered a substitute for, or superior to, U.S. GAAP results. In addition, the Company's calculation of the non-GAAP financial measures may be different from the calculation used by other companies, and therefore comparability may be limited.
